

MIRAPOINT MESSAGE SERVER 50

## Who is Mirapoint?

Founded in 1997, with 250 employees, 800 customers and 115 + million mailboxes served and secured, Mirapoint is the only end-to-end email and email security vendor in the world. Mirapoint also sells the world's only appliance-based mail server. Customers include DirecTV, TORO, Cal Poly, University of Chicago, Japan Airlines, British Telecom and many, many more!

Mirapoint has developed simple, reliable, standards-based appliances that solve a variety of email challenges: security, downtime, scalability, IT overhead, TCO, ROI, and spam, all in an easy to use and cost effective appliance platform. Put another way, we've done for email what Cisco did for networking.

### Email Security Appliance — the RazorGate:

- RazorGate 100 - 1,500 email users
- RazorGate 350 - 5,000 email users
- RazorGate 500 - 5,000 email users

The RazorGate email security appliance provides the industry's best protection against spam, viruses, hacker attacks and other sophisticated security threats facing today's message networks.

#### Features Include:

- Unique MailHurdle™ connection management technology blocks 60-80% of threats at the edge
- Multi-layered spam protection yields 98% catch rates with virtually zero false positives
- Integrated, industry-leading RAPID zero hour virus engine
- Unique wiretap capability that is transparent to end users
- Secure, hardened operating system with no known exploits
- Integrated mail routing and queue management
- Proven 99.999% reliability

## What We're Known For

- Industry-leading 99.999% uptime reliability
- High performance email
- Scalability from 100 users to millions of users
- Standards based appliances work with any SMTP, LDAP, IMAP or POP system or client
- Locked-down OS that is completely secure
- Simple, cost-effective management and update

### Email Server Appliance — the Message Server:

- M50 all-in-one email/email security appliance; 50-500 users
- M500 mail server 500-5,000 email users (range can go far higher depending on deployment specifics)
- M5000 mail server — more than 5,000 email users (range can go lower depending on deployment specifics)
- ComplianceVault 100 - World's only 1U Email Archiving Appliance with 1 Terabyte of Storage

The Mirapoint Message Server™ is a solid foundation for any size email network, combining an ultra-reliable mail server with built-in anti-virus and anti-spam capabilities, Internet standards-based message routing, group calendar, Outlook support, webmail client, simple management and multimode client access-with the industry's best price-performance and the scalability to handle even the most demanding messaging environments.
