

Mirapoint for Security

Slam the Gates on Threats to Your Message Network

“OUR MIRAPOINT SOLUTION IS ALWAYS UP AND RUNNING. I CAN’T REMEMBER THE LAST TIME I LOOKED AT PERFORMANCE LOGS, THERE’S JUST NO NEED.” TORO

CUSTOMERS | SECURITY

“We use email throughout our business processes - to communicate with customers, vendors, tradespeople and remote sales personnel, including internal email between departments. To improve efficiency and communication across our business, we needed an email security solution that had high catch-rates with no false positives, enabled users to self-manage their inbox with white and black lists, and worked seamlessly with our existing Exchange environment.”

> JAYMAN MASTERBUILT

“Only RazorGate offered the layers of email security we needed... Mirapoint’s maturity in product development and unique technology like MailHurdle, coupled with their long-term experience in messaging, made them the best fit.”

> RSA SECURITY

“When we saw the results of the Mirapoint appliance, it was a no-brainer. We didn’t want to shrink the problem, we wanted to solve it and RazorGate did that for us.”

> BLUE RIDGE SAVINGS BANK

“We took the product for a 10-day trial and from day one we witnessed dramatic results in spam and virus filtering. Within 10 days, we were filtering 1000 spam emails out of the system on a daily basis. Given these results and the fact that the solution scored highly from a maintenance, update and configuration perspective, the notion of returning the RazorGate 100 was never entertained.”

Top Ten Reasons Customers Select Mirapoint

With more than 115 million mailboxes served and secured worldwide, Mirapoint is the market leader in appliance-based solutions for secure message networks in Fortune 500 enterprises, service providers and educational organizations. Here's why:

SPAM AND VIRUS PROTECTION

- 1 Mirapoint's multi-layered approach to email security starts with blocking 60 - 80% of threats at the edge of the network before network resources are used, with MailHurdle, a unique connection management technology. MailHurdle is the first line of defense with inbound messages. In combination with RAPID Anti-Spam and Anti-Virus technology, overall catch-rates of 98% are achieved with virtually zero false positives.

ROBUST CONTENT FILTERING AND POLICY MANAGEMENT

- 2 Mirapoint's RazorGate provides flexible content filtering based on any parameter for inbound and outbound message traffic, as well as enforcement of administration policies.

SECURE, HARDENED OPERATING SYSTEM

- 3 The hardened OS is optimized for performance and reliability. With no known exploits, it provides maximum security.

SIMPLE DEPLOYMENT

- 4 RazorGate MailHurdle Edition is designed for 'set and forget' administration. Simply deploy the appliance in minutes, and optimize your network by reducing message traffic.

END-USER JUNK MAIL MANAGEMENT

- 5 Users can activate junk mail scanning, configure individual filtering rules, like black and white lists, as well as manage their individual junk mail folder. The personalized junk mail management features also work with any legacy mail server.

DEEP LDAP INTEGRATION

- 6 Integrates with all common directory systems to combat directory harvest attacks and provide granular policy controls.

SCALABILITY

- 7 Meets the needs of the most demanding service providers and enterprises. RazorGate MailHurdle Edition is scalable to meet the needs of any size organization with tested throughput capabilities of 3.5 million messages per box, per hour.

HIGHLY RELIABLE

- 8 Purpose-built appliances provide 99.999% uptime reliability with exceptionally high performance.

EASY MANAGEMENT AND ADMINISTRATION

- 9 Simplified administration and queue management tools speed deployment and reduce ongoing costs. Class of Service controls let administrators define what specific services are provided to individual users and domains. The administrator can easily configure different features for different types of users.

INTEGRATED MESSAGE SYSTEM

- 10 The RazorGate appliance can function as a router to integrate message systems that would otherwise be incompatible.

ABOUT MIRAPOINT

Founded in 1997, Mirapoint is the market leader in appliance-based solutions for secure message networks in enterprise, service provider, and educational organizations, with more than 115 million mailboxes served and secured worldwide. Customers use Mirapoint appliances including the Message Server mail appliance and the RazorGate mail security appliance to build the messaging infrastructure that intelligently serves, secures and manages email. Mirapoint is headquartered in Sunnyvale, California, with offices throughout North America, Europe and Asia. For more information on Mirapoint, visit its Website at www.mirapoint.com.
